MTX to OMX Conversions

1. "2_ModelScripts\0_InputProcessing\c_NetworkProcessing\2_FFSkim.s"

   - In order to report the unconnected TAZs, we need to convert the skm_FF.mtx file to an omx file. This can be done by adding the following code after 'Network Processing 2: free flow skims'

     –

     > **i** Note
     >
     > convertmat from = '@ParentDir@@ScenarioDir@0_InputProcessing\skm_FF.mtx' to = '@ParentDir@@ScenarioDir@0_InputProcessing\skm_FF.omx' compression = 1 format = omx
